

The D*Si-pro* Cricket System

Dura-Sport introduces
The D*Si-pro* Cricket System,
the latest ECB Approved non-turf
cricket pitch system

Dura-Sport have specialised in the installation of non-turf cricket pitches throughout the UK and Europe since 1995, gaining extensive technical knowledge and a reputation for delivering first class facilities. The company has used its substantial in-house expertise to design a new non-turf cricket pitch for match play and practice, the **D*Si-pro* Cricket System** sets a new standard in non-turf pitch performance.

Features include:

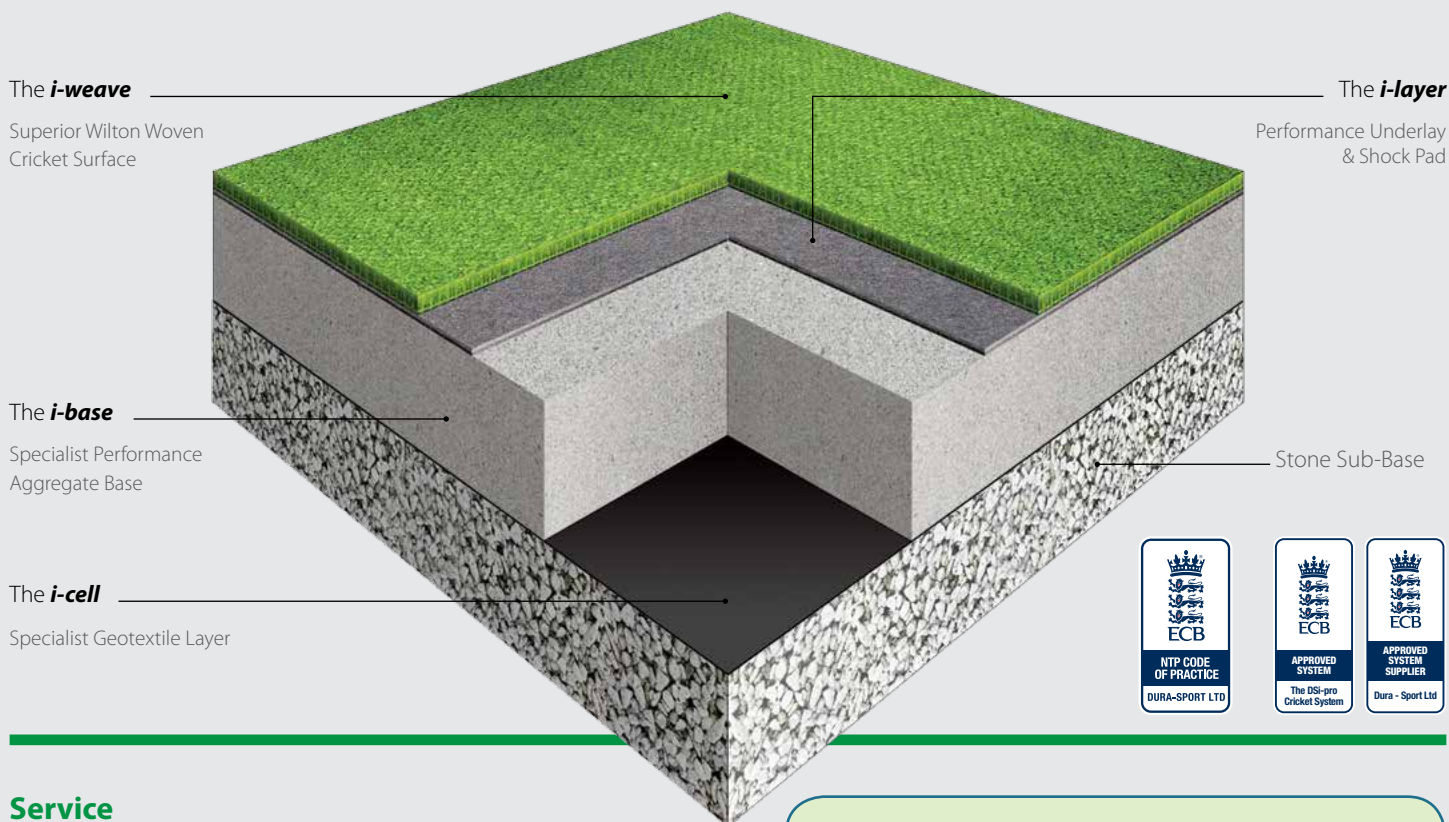

- Extended warranties and guarantees
- Outstanding value
- Minimal maintenance and extended life expectancy
- New advanced pitch design
- Unique performance guarantee
- Projects managed & constructed exclusively by Dura-Sport
- Innovative i-weave cricket surface

Construction

Whether it is a single batting end or a large scale multi-functional cricket facility, The ECB Approved **D*Si-pro* Cricket System** is available in a range of sizes and layout options in order to facilitate individual clients requirements. Each project is designed and constructed in line with the latest industry technical requirements by our highly skilled in-house staff. Installation teams are equipped with specialist machinery specifically designed to maximise efficiency and minimise disturbance to the surrounding environment. All facilities are built with a 12 month workmanship guarantee and carry extensive material warranties. **The D*Si-pro* Cricket System** is also provided with a performance guarantee to provide clients complete assurance and peace of mind.

The ECB Approved DS*i-pro* Cricket System

Service

Dura-Sport operate throughout the UK and our non-turf pitch advisors are available to visit clients free of charge to offer guidance and no obligation advice on all aspects of your proposed scheme, including:

- Facility design and dimensions
- Orientation and location preferences
- Construction and drainage requirements
- Planning permission and funding options
- System and performance characteristics
- Cricket cages, netting and security barriers/fencing
- Post installation service, maintenance and aftercare
- Project Management, Health & Safety and CDM regulations

Following a consultation Dura-Sport prepare a project specific, detailed information pack for the proposed scheme including designs, specifications and quotations. From cricket clubs, schools, local authorities, leisure centres and private clients, we pride ourselves on providing best value solutions tailored specifically to each clients requirements.

For further information please contact Dura-Sport's cricket department on 0116 2813200 or email cricket@dura-sport.co.uk

Refurbishment & Repair

Dura-Sport also offer a free of charge, no obligation condition report on existing non-turf cricket facilities, regardless of original installer. We include advice and recommendations on required remedial works from surface cleaning and minor repairs to complete pitch reconstruction.
